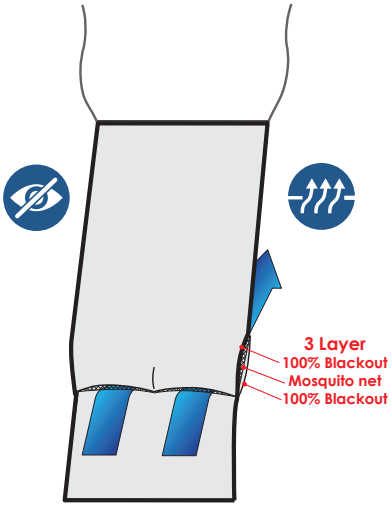
BLINDS WITH VENTILATION
for companionway

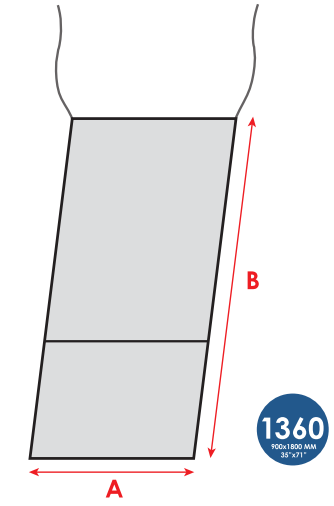
5 sec mount



THREE LAYER FUNCTION

Durable and easily attached blind that are designed for the companionway. There is a double layer part sealed with a mosquito net to let air for ventilation and to keep out the light or people peering in the boat. The weighted edge band keeps the net in place and makes it fall back smoothly after passage. The curtain is 900 x 1800 cm (35" x 71"), in size, which makes it suitable for most types of boats. Integrated ventilation with mosquito net to let in air.

- Quickly assembled, no permanent installation is required
- Prevent people to peer-in when moored in a public dock
- Convenient storage bag is included
- Suitable for most boats on the market, both sail- and motorboats



A x B 900 x 1800 mm (35" x 71")
