

## DISCOVER THE NEW

### TR-60 PRO Outboard Motor Trolley

#### ***The smart solution to handle your outboard motor***

OdeSea® is the first one to develop an outboard motor trolley which is both lightweight as well as stable. The new Pro version has a weight reduction of 50%, weighing in at 4 kg. The new OdeSea® TR-60 Pro is universal adjustable to perfectly fit any outboard engine up to 15 HP. The solid square tube design and fastening mechanism gives the trolley the strength and stability to handle any outboard motor up to 60 kg safely and virtually without effort.

The non corroding aluminium and other materials used will ensure a long life. Making it the most durable and sustainable solution in the market.

OdeSea® Teugseweg 18 7418AM Deventer | The Netherlands
